- (b) which
- (c) whom
- (d) who

Directions (16-20): Read the passages carefully and choose the best answer to fill the space provided out of the four alternatives.

Going forward, a major (1) _____ for policymakers globally will be the lack of sufficient central bank firepower should the global economy move into a full-fledged recession in 2019. After years of adopting a monetary policy regime marked by near-zero interest rates, central banks like the Fed now have very little (2) _____ to lower rates if they want to fight a recession. This is despite the (3) _____ tightening of rates and unwinding of asset purchases in the last few years. The next recession may thus witness central banks adopting even more unconventional methods to stimulate their economies. Some hope that governments will ramp up (4) _____ to compensate for the lack of monetary policy leeway. But it is unlikely that any fiscal stimulus will fully compensate for the absence of an accommodative monetary policy, particularly when most governments are already deeply (5) _____ in debt.
